

# Eden Green Guesthouse

## ENVIRONMENTAL STATEMENT

At Eden Green Guesthouse we are committed to helping the Environment as much as we possibly can. The ways in which we do this are as below

- We recycle all glass
- We recycle all cardboard
- We recycle as much plastic as we can
- We recycle aluminium foil
- We cook breakfasts to order thus reducing food waste
- We purchase locally which reduces “food miles” and aids local producers and local shops
- We purchase liquid hand soap and shower gels from The Soap Co., Keswick which are refilled, thus reducing our bathroom plastic waste.
- We fill glass bottles with “perfectly” drinkable tap water for our guest bedrooms and these are refilled daily. Any water which is left in the bottles is used to water plants either in the garden or in the house
- We plant plants that are attractive to and encourage pollinators into the garden
- We put waste coffee grounds on the garden
- We recycle our printer cartridges
